About the Society

The Society was founded in 1967 with the aim of promoting the advancement of earth sciences particularly in Malaysia and the Southeast Asian region. The society has a membership of about 600 earth scientists interested in Malaysia and other Southeast Asian regions. The membership is worldwide in distribution.

For enquiries about the Society, e.g. membership, annual dues and publication, please write to:

PENDAHULUAN

Pihak Persatuan mengucapkan ribuan terima kasih kepada semua penulis dan pengulas. Penghargaan juga ditujukan kepada penderma-penderma atas sumbangan-summangan mereka kepada Tabung Penerbitan Persatuan.

PREFACE

This Bulletin, the 31st in the Society's Bulletin series, contains 11 papers. The majority of the contributions (7 papers) were presented at the Society's Annual Geological Conference 1991, held on the 4th and 5th May 1991 at Holiday Inn, Kuching, Sarawak.

The Society is indeed grateful to all contributors for their valuable papers. In addition, the Society appreciates the painstaking work of the many reviewers and proofreaders and the valuable financial contributions by the many donors to the Society's Publication Fund.
