Bulletin of the Geological Society of Malaysia

JUNE 2006

No. 52
This, the 52nd volume of the Geological Society of Malaysia’s Bulletin, contains seventeen papers that were submitted for presentation at the 2006 National Geoscience Convention (the 20th of GSM’s annual conferences), which takes place on 12-13 June, 2006 in Petaling Jaya, Selangor. Over 40 papers were submitted, these were the ones that were processed early enough to make it into the Convention volume. We will be printing the rest of the papers which make it through the selection process in a subsequent volume, to be published in a few months.

We had fewer problems this time in producing this volume. Part of it was additional experience; the other part was the investment on the part of GSM in some computer hardware and software.
